LANDSCAPE CHECKLIST

In order to perform a uniform and consistent review of Landscaping, as a minimum, the following documents are required to be submitted:

- 1.) A completed Town of Juno Beach permit application.
- 2.) Location and number of all proposed landscaping and location of landscape buffers.
- 3.) A separate list of both the species and common name of the proposed landscaping.
- 4.) Native and non-Native plant designation and percentage of native plant material utilized for each type of plant including trees, shrubs, and groundcover.
- 5.) Size, as appropriate, of all proposed landscaping.
- 6.) Total square feet of landscaping and pervious surface.
- 7.) Percentage of landscaping and pervious surface of the total site area.
- 8.) Statement that all landscape areas will be provided with permanent, automatic irrigations where needed.
- 9.) Calculations for provision of landscaping for vehicular parking and circulation areas.
- 10.) Engineering plans including water and sewer, drainage, paving, and grading must have all the following: High and low points shown on drainage, paving and grading plans. Cross sections are required at all perimeter conditions. Coordination with the Landscape Plan is required.
