Town Attorney Rubin read Ordinance No. 693 by title only.

A. Staff Presentation and Recommendations
Mayor Haselkorn stated that staff's memorandum, presentation and all back-up materials from this meeting would be placed into the record.

Director of Planning and Zoning Cruz stated that staff received a communication from the Loggerhead Marinelife Center requesting the Town pass a ban of balloons in

parcs and on beaches. After doing some research, staff is presenting this ordinance on first reading for Council's approval. The ordinance would prohibit the display, possession and release of floating balloons and sky lanterns on any property located within the Town. He stated that the ordinance would also prohibit the display, release and distribution of balloons of any kind within any park within the Town.

Town Attorney Rubin stated that this is a very strict ordinance, but staff felt that it should be given that Juno Beach is the home to one the densest sea turtle nesting beaches in the country.

Councilmember Greene stated that he would agree with prohibiting the balloons but does not understand why sky lanterns needed to be prohibited as they are not made out of anything that is harmful to the environment or living creatures.

Town Manager Lo Bello stated that the little metal trays that hold the candles in the lanterns can be ingested.

Town Attorney Rubin stated that the City of Lake Worth was going to adopt a similar ordinance banning floating balloons and sky lanterns, but decided to only adopt a policy and include it in its pavilion rental agreements.
