### BEACH CLEAN UP GUIDELINES

Please go over the following guidelines with all affiliates of your approved application:

- Remove litter during daylight hours only.
- The Site Coordinator should have all trash bags left at a designated area. Please make sure volunteers securely tie bags when full and placed for pick up in your designated area.
- Volunteers should not consume intoxicating liquids, beverages, or illegal drugs during the clean up.
- Please provide gloves and ask volunteers to use caution when picking up sharp objects, metals or glass.
- Please ask volunteers not to lift anything too heavy.
- Please ask volunteers not to pick up any type of hypodermic needles or other hazardous waste such as paint, used motor oil, automobile batteries, etc. Have volunteers note the location and report it to the Site Coordinator.
- Please ask volunteers not to approach large drums. The drums may contain hazardous wastes; even vapors can be harmful. Have volunteers leave the drum and report its location to the Site Coordinator.
- Please ask volunteers to avoid any suspected hazardous substances.
- Please ask volunteers to avoid areas where snakes, fire ants, jellyfish, crabs or other dangerous species may be located. Volunteers should avoid contact with all animals both wild and domestic.
