

Understanding Cancer and Clinical Trials - A Free Community Education Program

YOU'RE INVITED! Join our FREE community course designed to help you understand cancer and explore treatment options, including clinical trials. Our expert-led sessions empower you with tools and knowledge to make informed decisions. Featuring local oncology research specialists, and dedicated Oncology Clinical Research Nurses.

You will learn:

- What is cancer?
- How cancer develops in the body
- Signs, symptoms, and importance of early detection
- What clinical trials are and how they work
- How to access cancer trials in our community
- Common myths and fears – “Am I a guinea pig?”
